NOW OFFERS

**Adult and Pediatric First Aid,
CPR and AED**

Blended Courses: part online & part face-to-face!

Certified Instructors from our staff prepare you for identifying and responding to a variety of first aid, breathing, and cardiac emergencies involving adults, children, and infants. Our course meets OSHA and workplace requirements.

The training is offered in a blended learning format that gives participants the convenience of completing part of the course as an online experience and the other through an instructor-led skill demonstration session.

The online portion is self-paced but must be completed prior to attending the in-class skill portion. Must have access to a PC or tablet with a high-speed Internet connection.

Upon successful completion, you will be awarded a digital certificate for the **American Red Cross Adult and Pediatric First Aid/CPR/AED** and valid for two years.
